

**KULTUR FESTIVAL**  
23-25 March 2006

In March 2006, the European International School (the common educational framework of Deutsche Schule Manila, Ecole Française de Manille and the European IB Section) will host a 3-day cultural festival that will bring together more than a hundred students of different nationalities coming from the German-Swiss Schools in the Asia-Pacific region.

The "Kultur Festival" is an event held every two years with a different school hosting the event each time. It is an opportunity for both visiting students and those studying in their host country to discover the local culture.

#### **Mission Statement**

We increase our awareness, expand our horizons and develop our skills through interaction with local arts and artists as well as with our peers from other Asian countries.

#### **Objectives**

- To have an introduction to the local culture through direct experience and contact with local Filipino artists and local art forms.
- To gain insight into and to increase awareness of other Asian cultures.
- To interact with other students living in other Asian cultures.
