

### Language exchanges with Brent and British Schools

For the second time in a year, the French B IB classes of Brent Manila, British School Manila and EIS got together for a debate. This year the event took place at EIS on Friday, January 20, and the topics were Euthanasia and The Death Penalty. Prior to that, in their respective classes and with their teachers, the participants had addresses, discussed and studied several aspects of the two topics in French in order to conduct the debate with talent and eloquence. The 20 students were divided into four groups including individuals of each school. The debates took place in both IB classrooms and the performance of the participants was assessed by the three teachers. Most students were very enthusiastic and passionate and showed very good language skills. Everyone agreed that this was a very valuable experience and a third experience is already in the planning for the next school year.
